** New to equipped lifting

Definitions:

NXG+ material is the Titan mid level fabric providing great strength and pop

NXG Super + is the top of the line Titan 1 ply material with the extreme rebound and longevity

Stretch back allows putting on the shirt much easier than the competitors shirts

Spandex Back allows much more shirt adjustment and tweaking

Torque sleeves allow you to build more tension and support the triceps better

Low collar allows for more adjustment on the shirt front.

Scooped collar allows even more shirt adjustment and allows the collar to be attached to the sleeves for more pop off the chest
